

ASTROLOGY: Planetary Event Calendar for March, 2020 by Joe DiSabatino, M.Ed.

Earth energy is featured this month. Pluto, Saturn, Jupiter and Mars are all moving through the sign of Capricorn while Uranus and Venus move through Taurus. So six planets are in earth signs. Capricorn earth energy is practical, grounded, hard-working, ambitious; Taurus earth energy features the body and the five senses, the environment, art and beauty in all forms. Earth and water energies invigorate through attuning to the physical world and our emotional responses to it. This month is good for cleansing and cleaning, preparing the soil for the burst of spring's Arian fire energy.

- 1. March 6-9th: Venus enters Taurus on the 6th and joins up with Uranus.** The feminine principle needs her freedom and independence. Good days to do or buy something unconventional that enhances beauty. Men may be attracted to women from another country, someone exotic.
- 2. March 7-10th: The Sun in Pisces conjuncts Neptune.** This is a highly idealistic, service-oriented, romantic, artistic, spiritual period. The downside is looking at the world through rose-colored glasses. You'd be wise to avoid signing contracts or making major purchases these 3 days—wait until after Mercury goes direct on the 10th.
- 3. March 10th: Mercury turns direct in Aquarius and moves into Pisces on the 17th.** The flow of day-to-day business resumes in a straightforward manner with Mercury direct. Clarification about lingering issues and decisions that were delayed the past three weeks happen now.
- 4. March 9th-20th: The Sun in Pisces forms positive 60 degree sextile aspects (sextiles=opportunities) in succession to Jupiter, then Pluto, then Saturn, all three in Capricorn.** These are good days for taking action, making things happen and responding favorably to new ideas or meeting with new business contacts. Trust your intuition and instincts (Pisces energy).
- 5. March 19th:** Vernal equinox happens at 11:50 pm when the Sun is at 0 degrees Aries, the most potent degree of the zodiac. If you're awake, it's a good idea to consciously welcome the arrival of spring and new beginnings by meditating for a few moments just before midnight. Try to feel the shift: "An **equinox** is commonly regarded as the instant of time when the plane of the Earth's equator passes through the center of the Sun. This occurs twice each year, around 20 March and 23 September. In other words, it is the moment at which the center of the visible Sun is directly above the equator." (Wikipedia)
- 6. March 23rd: Saturn enters sign of Aquarius but only until July 1 when it retrogrades back into Capricorn for the rest of 2020.** Saturn then re-enters Aquarius on December 18th where it will be for 2.5 years. Saturn's move from conservative, cautious, practical Capricorn to the visionary, break-from-the-past Aquarius will effect the world and each person, depending on house placement of Saturn in the chart. In ancient astrology, Saturn rules both Capricorn and Aquarius, so this 5 year period of Saturn moving through its home signs favors setting and manifesting our goals through self-discipline and hard work.
- 7. March 24: New Moon in Aries takes place at 5:28 am in Myrtle Beach.** Align your New Moon wishes to the archetype of Aries: where in your life do you need to be thinking more about your needs and not so much about others' needs, where and how do you need to be bold and daring, take risks, stand up for yourself?
- 8. March 27-30th: Venus in Taurus makes a very positive connection to Mars, Jupiter and Pluto in Capricorn:** this is a very dynamic 4-planet aspect for love and money. Starting a new relationship or a business with this aspect will bring success and prosperity in either. Good days for a holiday.
- 9. March 29th: Jupiter conjuncts Pluto in Capricorn.** This auspicious aspect happens once every 12 years in a different sign. People born during the Jupiter/Pluto conjunction or trine (120 degrees apart) are usually highly successful. It denotes high-level business savvy which is why it's called the millionaire's aspect. In the ambitious sign of Capricorn, the effect is amplified. So the last week of March after the New Moon on the 24th is an excellent window for anything to do with love and money.
