

ASTROLOGY: Planetary Event Calendar for March, 2021 by Joe DiSabatino, M.Ed.

As the old saying goes, March comes in like a lion and goes out like a lamb. Actually the planetary alignments for most of March are gentle (Saturn is a friend this month) except for the “Moon Wobble” difficult energy in effect until the Ides of March (March 15th).

To quote astrologer Signe Quinn Taff:

“During Moon Wobble the instability factor is high, resulting in more accidents, fires, plane crashes, freak accidents, floods, feats of nature, bizarre weather patterns, earthquakes, tornadoes, violence, terrorism, riots, political and personal upheavals.”

A Moon Wobble occurs when the transiting Sun is at right angles to the transiting Lunar Nodes, and also during eclipses when the Sun and Moon are close to or conjuncting the Lunar Nodes. In early March the Sun in Pisces is at right angles to the Lunar Nodes in Gemini and Sagittarius. The square aspect is exact on March 5th, although its effect kicks in 10 degrees before exact (February 22nd) and lasts until the alignment is 10 degrees past exact (March 15th).

Interesting to note that the transiting Saturn/Uranus 90-degree square was also exact on Feb.17th (exact again in June and December). So the Saturn/Uranus exact square and the approaching Moon Wobble has resulted so far in the electric grid failure in Texas (Uranus rules electricity, Saturn rules cold, freezing weather); the eruption of Mt. Vesuvius in Italy, more powerfully than any time since the 1970's (Uranus in earth sign Taurus= earthquakes, volcanic eruptions); a commercial jet engine fire and emergency landing in Denver; golf star Tiger Woods seriously injured in a car accident; and the temporary disruption of the Federal Reserve payment portal on Feb. 24th. There will be similar disturbing events in the world up to March 15th.

Astrologer Quinn Taff advises the following: ***IMPORTANT MOON WOBBLE TIPS***

1. Avoid getting car repairs and repairs on appliances because you end up having to take them back again in a short time.
2. Get medical and dental work done before Moon Wobble, unless it is an emergency. Should you injure yourself even slightly, get it checked out by a doctor because something minor could turn into something major.
3. Never get married during Moon wobble, because the marriage date sets the tone of your Life together.
4. Don't go apartment or house hunting during Moon Wobble, because the reality of how something really is, is not apparent during Moon Wobble.
5. Try not to make a residential move during Moon Wobble, because it is more stressful to move at that time.
6. Nothing goes as planned during Moon Wobble, so be prepared to be flexible.

7. Some Moon Wobbles are dangerous for travel and other Moon Wobbles provide unexpected adventure on the plus side. **(my note: Jupiter and Mercury form flowing angles to the Nodes for this one, so that means positive protection, esp. when traveling. But Neptune and the Sun are conjunct in Pisces the 5th-10th—Neptune rules the sea (tsunami?), also toxic gases and poisons, and deception in general)**

8. The Moon Wobble energy only magnifies any existing problems, amplifying them so the problems must be dealt with. If you face your Moon Wobble situation constructively, then it becomes a blessing.”

Other noteworthy days in March:

1. **March 4th—Mars enters the sign of Gemini.** Mars wants a change of scenery, some travel, even a day trip to break free of stifling routines, COVID restrictions.
2. **March 11th-14th: Venus conjuncts Neptune in Pisces.** The most romantic and artistic aspect of all, the Hollywood story-book love affair par excellence. BUT: it's happening at tail end of Moon Wobble. Venus/Neptune also means falling in love with love and idealizing new partner, followed by a rude awakening. Seek feedback from a trusted friend if you meet someone new during these days.
3. **March 13th: New Moon takes place in Myrtle Beach at 5:21 am at 23 Pisces.** Align your New Moon wishes with archetype of Pisces: review what you learned the past year, the mistakes you made, mend fences in relationships, help someone in need. Put your spiritual ideals into practice.
4. **March 13th-23rd: Sun in Pisces and Pluto in Capricorn make a harmonious connection as Mars forms an excellent angle to Saturn**—if there is an opportunity for growth or change in your career, go for it!
5. **Vernal Equinox takes place on March 20th at 4:38 am in Myrtle Beach.** The vernal equinox happens when the Sun is at 0 degrees Aries, the most powerful degree in the zodiac. Go outside before retiring on the 19th—if it isn't raining, you can sense in the air the transitional dance between the last gasp of winter and the new breath of spring. It's a magical time of year.
6. **March 21st: Venus enters sign of Aries on this first full day of spring.** In relationships, particularly for women, it's time for a new beginning, a shedding of patterns that no longer work. No more giving and giving (Piscean self-sacrifice)) and not receiving.
7. **March 21st-24th: Mercury in Pisces in stressful aspect to Mars in Gemini.** Perhaps there are arguments with your partner as a result of you being more assertive (Venus now in Aries).
8. **March 25th-April 2nd: Sun and Venus come together in Aries and both make a harmonious aspect to Saturn in Aquarius. At the same time, Mercury conjuncts Neptune in Pisces.** These aspects will help you to either peacefully resolve long-standing conflicts and find a relationship path forward, or else reach a mutual agreement to end a relationship without rancor.
